Community Visioning Report Card Available Online

Fredericksburg, TX - The City of Fredericksburg and Gillespie County began a new visioning process in February 2017. This process included hundreds of our citizens who were involved in countless committee meetings and public forums, with additional input gathered from numerous sources. The visionary statements included in the Community Visioning Plan are intended as opportunities to keep concerned Fredericksburg and Gillespie County citizens involved in a continual process of planning for the future.

The now complete visioning plan "A Path to the Future" includes four key focus areas (Business, Government, Family Life, and Quality of Life) along with goals and objectives which are identified in the document. These visions are a direct result of the issues that consistently generate the most involvement and interest throughout our community. Some of these issues may or may not be considered as imminent concerns, however, it is the goal of the participants in this process to avoid these issues becoming problems as they may have for other communities.

When the Community Vision Plan was developed, a commitment was made that the recommendations included in the Plan would be implemented by different organizations and individuals in the community. In other words, the Plan would not be something that would simply be filed away for future reference. This Community Report Card is intended to share with the community what has been accomplished since the Plan was finalized and distributed in October 2018. It is hoped that when the next Community Report Card is prepared in about two years that many more accomplishments will be noted as the community continues to achieve its vision for the future.

The Community Visioning Report Card can be accessed online at <https://www.fbgtx.org/806/Community-Visioning>. Hard copies are also available at City Hall located at 126 W. Main Street in Fredericksburg.
